

# FROM INNOVATION TO IMPACT

Chain Reaction Innovations (CRI) is a two-year fellowship for early stage founders focusing on clean energy and science technologies. We are inclusive from innovation to impact.

## PROGRAM BENEFITS

- Two-year fellowship includes stipend up to \$110k per year
- Benefits include healthcare with family option
- Travel allowance up to \$12k per year plus moving expenses
- Up to \$220k for technical work
- Entrepreneurship and business training for first time founders
- Networking access to business experts, investors, mentors, and corporate partners
- Technical expertise from subject matter experts at Argonne
- Access to the world-class facilities at Argonne
- Argonne takes no equity stake
- Training and support in competing for non-dilutive SBIR /STTR opportunities

CRI startups and their mentor scientists conduct research at Argonne to scale up their technologies.
