

# Science Policy Career Session

Interested in opportunities at the intersection of science & policy?

**Want** to gain first-hand experience in establishing and implementing science policy?

American Association for the Advancement of Science **S&T Policy Fellowship**, a post-graduate level fellowship, offers medical doctors, scientists, and engineers the opportunity to contribute your analytical skills to policymaking in Washington D.C., while learning about the role of science in the federal government.

Since 1973 more than 2,600 scientists and engineers have been placed in more than 30 Congressional offices and 15 federal agencies.

To learn how to become a AAAS S&T Policy Fellow, join us on:

**Tuesday, July 23**

**12:00 PM - 1:15 PM**

**Argonne National Laboratory  
TCS Conference Center  
Bldg 240, Rm 1416**

Light lunch will be provided.  
Please **RSVP** by **July 16** to Tina henne,  
Postdoctoral Program Coordinator  
at [khenne@anl.gov](mailto:khenne@anl.gov).

The Session will feature:

**Information about the S&T Policy Fellowships, one of the most prestigious fellowships in the U.S.**

*Presented by:*

**Rick Kempinski:** Project Director, AAAS S&T Policy Fellowships

**Jeffrey Margolis:** 2010-12 DSD Alumni Fellow and Managing director, Illinois Science & Technology Coalition

**Norman D. Peterson:** Argonne Participant and Director, Governmental Relations, Argonne National Laboratory
